Authorized Dealer Network

Dealer Machine Sales Across India

Bird Renewables manufactures selected automotive service machines and supplies them through authorized dealers across India.

At present, Bird Renewables dealer-sale machine products include:

- **HHO Carbon Cleaning Machine**
- **Engine Carbon Flushing Machine with Piston Ring Treatment Support**
- **BS6 DPF Cleaning Machine**

These machines are designed for professional workshops, service centres, fleet maintenance operators, diesel vehicle workshops, and engine-care business owners.

All machine sales enquiries, demonstration coordination, local customer support, workshop onboarding, and regional business development are handled through Bird Renewables' authorized dealer network.

Authorized Dealer - Coimbatore / Tirupur Region

BRD Engineering Research & Innovations

BRD Engineering Research & Innovations handles regional customer enquiries, machine demonstration coordination, workshop business support, and dealer-side customer communication for Bird Renewables' automotive engine-care machine division.

Dealer Product Categories

HHO Carbon Cleaning Machine

Controlled on-demand HHO gas system for engine carbon cleaning / decarbonizing service. The machine supports combustion-side carbon cleaning through controlled HHO intake during running engine condition.

Engine Carbon Flushing Machine

Pressure-vacuum chemical flushing system designed to support piston-top, combustion chamber, sludge, and carbon deposit cleaning using controlled suction and blowing cycles.

Piston Ring Treatment Support

Special treatment option integrated with the Engine Carbon Flushing Machine. This process uses controlled suction and blowing cycles with inventor-developed treatment chemicals to help loosen carbon-restricted piston ring areas and support better ring movement and seating.

BS6 DPF Cleaning Machine

Fully automatic DPF cleaning system for BS6 diesel vehicles. Supports off-vehicle deep cleaning and on-vehicle cleaning support using hot air, hot water, air-assisted pressure, chemical wash, diesel spray wash, water rinse, and hot-air drying.

Important Business Clarification

Bird Renewables manufactures and supplies only selected automotive engine-care machines through authorized dealers.

All other Bird Renewables inventions, including HHO engine platforms, HHO boiler, HHO burner, furnace systems, clean thermal systems, renewable energy projects, and industrial innovation concepts are not regular product-sale items. They are available only through:

- Technology licensing
- IP licensing
- Manufacturing partnership
- Investor discussion
- Industrial project collaboration

Safety & Result Disclaimer

Service results may vary depending on machine operation, vehicle condition, carbon deposit level, DPF condition, piston ring wear, compression condition, fuel system condition, sensor condition, maintenance history, and operator method.

Machines are intended for professional workshop use by trained operators only. Final product specifications and service outcomes are subject to proper operation, safety procedures, vehicle condition, and model selection.

Short Version for Website Home Page

Bird Renewables manufactures HHO Carbon Cleaning Machine, Engine Carbon Flushing Machine, and BS6 DPF Cleaning Machine for professional workshops. These machines are supplied through authorized dealers across India. For Coimbatore / Tirupur region enquiries, please contact BRD Engineering Research & Innovations, authorized dealer for Bird Renewables machine products.
